

**Making the Impassable Possible.**

# AMPHIBIOUS CRANE

by

*High-Performance Tools for  
the Fully Amphibious Utility Vehicle*

• **Powerful** Capable of lifting and setting a 45 ft. class 2 pole.

• **Versatile** Fully amphibious unit with multiple capabilities from augering to pick and lift tasks. Performs in swamps, marshes and wetland terrain inaccessible by other equipment.

• **Cost Effective** Low-cost alternative to traditional methods such as matting. Low ground pressure minimizes environmental impact.

# Amphibious Crane

High-Performance Tools for the Fully Amphibious Utility Vehicle

## HIAB 033T-2
