

**Making the Impassable Possible**

# Herbicide Spray Rig

*Fully Amphibious  
Herbicide Sprayer*

by

## • **Powerful**

Hydraulic or gas driven HYPRO D-30 pump delivers via hand gun up to 8 gallons per minute at a distance of 65 feet.

## • **Versatile**

Fully amphibious unit ideal for herbicide spraying projects in swamps, marshes and wetland terrain inaccessible by other equipment.

## • **Cost Effective**

Practical alternative to costly aerial herbicide applications or mowing operations in wetland areas inaccessible to non-amphibious equipment. Low ground pressure minimizes environmental impact.
